

“ Since joining the board just 2 years ago Matt Parsons and Mike Cox have been fundamental in growing the business. Turnover has increased by over 25% in this time and we continue to grow and strengthen the studio team. We have been fortunate to continue to win a series of interesting and challenging schemes which attract some of the best design talent available. Good young designers then contribute to winning more prestigious work. Matt and Mike are increasingly being recognised as the driving force behind the practice as we enter our 25th year. ”
